PRINTED BY THE SUPERINTENDENT, GOVERNMENT PRESS

1946

PREFATORY NOTE.

This volume contains the letters sent from Fort St. George in 1762 and is the thirty-seventh volume in the series of records known as "Letters from Fort St. George." Letters bearing Nos. 57 to 64 and portions of some other letters are lost. These gaps could not be filled in, as usual, from the India Office records as that office does not possess copies of this series of records.

The original manuscript volume has been mended and is in a good state of preservation.

RECORDS OF FORT ST. GEORGE

LETTERS FROM FORT ST. GEORGE
1762

VOLUME No. XXXVII.

No. 1.

To Samuel Ardley Esq^r.
Deputy Governor of Fort Marlborough.

Sir

We now dispatch the Ossterly to Bencoolen where we hope she will find you safe arrived with the Earl Temple and Plassey.

The Several Articles of Provisions which y^e. ships abovementioned could not receive are now sent in the Ossterly agreable to the Invoice & Bill of Lading enclosed also seven Chests of Treasure which with the eight Chests returned in the Earl Temple will, we judge be sufficient for four months Disbursements at the West Coast, exclusive of the Purchase of Pepper which may be on hand at the Subordinates.

By the enclosed Extract from a Letter from the President and Council of Bombay you will observe that on a Report of two of the Enemys ships of War having gone from the [. . .] to Batavia [as] Convoy to two others sent thither [. . .] His Majesty's ship [. . .] assisting in any service you may think necessary to recommend towards protecting the Company's affairs on that side.

By advices from Anjengo we learn that y^e. Medway & Panther with the Beliene and Seahorse passed that place in November.

We have been addressed by the Owners of the Success Snow Commanded by the late Captain Austin concerning some Engagements the Natives of your Coast entered into with Captain Austin (before the arrival of the Europe Ships at Marlborough) for Pepper in Barter for Goods he deliver'd to them which they are desirous we would give Orders may be duely performed Although we cannot gratify them in consenting to their having the Pepper, We are however of Opinion that they should have a reasonable Advantage upon the Goods they may have disposed of and deliverd, and that the Natives should pay for the same as the Prices [. . .] like sortm[ent . . .] usually purchased for [. . .] Quantity delivered [. . .] perfectly acquaint [. . .] Transactions As we understand Captain Austin was very assiduous in conciliating the difference subsisting between the Natives on his Arrival on the Coast, and encouraging them to keep their Plantations in good Order and to collect the Pepper, We would have you give all necessary Assistance towards the recovery of y^e. Amount of the Goods he disposed of to the Natives as abovementioned. The owners have likewise represented to us that some Presidents were made by Captain Austin to the Pangarans and other Head Men in the Company's Name and that he was at some other Expences on their Account at the request of M^r. Herbert. These you will obtain an Account of, and pay the Amount thereof to the Agent for the Owners of the Success Snow.

The Complement of the Osstertly's Crew having been exceedingly reduced by Sickness. The Surgeon of His Majesty's Hospital here has on our Application permitted such of the Seamen who are recovered and capable of doing Duty to assist on board the Ossterly [. . .] [ret]urn to the West Coast They are [the] number eighteen and [. . .] that they be returned by y^e. first opportunity [. . .] any of His Majesty's Ships that may touch [. . .] stores left their by the Norfolk and Duke of Richmond of which a List is enclosed of y^e. Military two deserted at Mallacca namely Godfrey Fillinger & Frederick Braulne.

Enclosed are such Accounts of Disbursements attending the Military and Stores at Atcheen and Mallacca as have been received from Mr. Frazer and Mr. Russel with the several vouchers transmitted therewith also Copies of ye. Letters received from the Governour of Mallacca and Mr. Frazer, As it is intended that the Earl Temple should fetch from thence the remainder of the Stores, it may be necessary to instruct the Commander, or send some proper Person to settle all Accounts relative thereto at Mallacca you will please to observe that the Government there has been supplied with some Salt Provision which according to Mr. Frazers Letters will either be paid for or restored in kind, in which you [. . .] by your own Circumstances and on the [. . .] that D. 400 were advanced. Mr. Russell [. . .] after Mr. Frazers De [. . .] one of the wri[ters . . .] proceeds to his Station, in the Ossterly, enclosed is an Account of the Money which has been advanced to him at different times. The other two Gentlemen Mr. Russell and Mr. Manington were left at Vizagapatam, where the Leopard put in at, and was obliged to leave the Road in hard Weather.

On the Ossterly are embarked eleven more Coffrees for the Service of the West Coast.

We have the pleasure to acquaint you that Veeloor Surender'd the 26th. Ultimo.

We are

No. 2.

To Samuel C[ornish] Esqr.
Rear Admiral of [. . .] Commander in Chief
of His Majesty's [. . .] India
or to the Commander of any of [. . .].

[. . .] Company's ship Ossterly arrived here in November from the West Coast with her people so exceedingly reduced by sickness that she could not remain even in this Road with safety. We were under the necessity therefore of making Application to Mr. Price Surgeon of His Majesty's Hospital here to permit such of the Seamen who were recover'd and capable of Duty to assist on board that ship in navigating her back to the West Coast. He Thought the necessity of the service might justify his compliance with our request and eighteen of His Majestys Seamen were accordingly embarked, we have given possitive Directions to Mr. Ardley the Deputy Governour at Fort Marlborough to return them by the first opportunity or put them on board any of His Majesty's ships that may touch on that Coast, which we hope will meet with your Approbation.

No. 5.

To the Honble Henry Vansittart Esqr.
President & Governour &ca. Council
at Fort William.

Honble Sir & Sirs

We wrote to you by the Syren Snow under date the 9th. November, and have since received your Letters of the 22d. October and 7th. Ultimo, with the former came enclosed first Bill of Exchange drawn by Capt. Hart on the Commanding Officer of the 96th. Regiment for Arcot Rupees eight hundred which was omitted to be enclosed in yours of the 3d. October and has been duely honoured.

In our Letter of the 12th. October We acquainted you in answer to [. . .] us the 7th. Septr. that we [. . .] the other five, we judged from this that your Honour &ca. would have understood we meant to desire you to send us up that remaining ship to compleat her loading with those Bales.

If your Honour &ca. should receive this in time to Order a ship here to take in about four hundred Bales we think it will be more for our Honble Masters Interest than it would be to load home from hence the Admiral Watson or Royal George. indeed that Number of bales would go but a Little way towards loading either of them and We have not a Bag of Salt Petre in Store. We shall be glad

to receive by the ships coming up at least three hundred Tons of this Article and if it did suit your conveniency it would be certainly proper to send us such a quantity as may leave us in store one or two hundred Tons more.

We acquiesce in your Request for the Reverend Mr. Samuel Stanely to occupy the vacancy occasioned by the Death of the Reverend Mr. Henry Butler late Chaplain at your Presidency untill the Companys pleasure be known.

The Earl Temple and Plassey sailed the 19th. of November for the West Coast with Mr. Ardley on board the former as provisional Deputy Governour. The Ossterly [dated the] 4th. Instant.

Th[. . .] Mr. John More ac[. . .] in answer as desired in your Letter of the 7th. December Mr. More before his Departure paid off the Bond he entered into with the Company for £100 at the time of his leaving England.

We desire you will inform us what Advances were made at your Presidency to John Aspiner an Artificer of the Fort Marlborough Establishment who came hither in the Syren Snow.

Agreeable to your Request We enclose Copy of the ship Plassey's Invoice from Europe.

We have the pleasure to acquaint you that our Honble Masters Ship the Norfolk imported yesterday the material Advices we have received since their last by the Coast and Bay; ships are contained in the Enclosed Extracts from their General Letter dated the 6th. May 1761.

As we observe by the Abstracts of the Norfolks and Chesterfields. Invoices for your Presidency that our Honble Masters have consigned to you a supply of station any it will be unnecessary for us to send you any out of our Store which is but small.

The Prince Henry Packet from Madagascar with Slaves is now standing into the Road.

No. 6.

To the Honble Charles Crommelin Esqr.
President and Governour &ca. Council
at Bombay.

Honble Sir & Sirs

Since we wrote to you by the Patty the 19th. Octor. we have received yours of the 12th. November.

In your letter of the 18th. January last Year you were pleased to acquaint us that the Fattee Salam was freighted for transporting some of His Majestys Troops, and to take in Provisions and stores for this place, and desire that we will give the Commander Orders to proceed to Anjengo and to follow such Directions as he may receive there from the Chief and Factors—The Chief and Factors at Tellicherry write the 4th. February that they had sent her to Mangalore to take in Masts for His Majestys Squadron and in a Letter of the 22d. of the same Month they acquaint us that they then sent her round to the Coast with Masts &ca. under convoy of the Earl Temple.

The 4th. of April she arrived here and the 14th. of that Month, we acquainted your Honour &ca. that we thought the Fattee Salam a proper Vessell for one of the Transports then proposed to be sent to the Mauritius if your Honour &ca. could prevail on the Owners to let her to Freight.

In the proceedings of your Committee of the 27th. May enclosed in your Letter to us of the 30th. of that Month you [. . .]. Owners of the Fattee Salam had relin[quished] [. . .] Maurituis [. . .] in that Place, and delivered her Loading except fifty five Pieces of Cannon, and 11700 Shot, as we were in want of such a ship to transport to Bengal His Majesty's 84th. Regiment Orders were given to the Captain to receive on board

Tons. qr. lb.

22. 6. 1. 20 of Redwood and to proceed thither, We thought this service might make some Amends to the Company for the long time that ship had laid unemployed, and that she might return from Bengal in time to leave this Coast at the proper season to have a good Passage round to Bombay. These were our motives for so employing her, and the Amount of her Lading being not more than about 250 Tons and the Camp Equipage of the Regiment, had we actually known she was a leaky ship we should not have expected that a Disaster so melancholy could have happen'd with the number of Men she had on board as you will learn by the enclosed Copy of a Letter from Captain Simmonds to the President and Council of Fort William. The Detachment she had on board from this Place of Colonel Coots Regiment together with a Company of French Voluntiers made in the whole near four hundred men.

The Earl Temple and Plassey a Country ship sailed the 21st. of November for the West Coast with Mr. Ardley on board the former as provisional Deputy Governour agreable to what we wrote to your Honour &ca. the 19th. October.

The Ossterly arrived here from Ben Coolen the 1st. November the Occasion of her coming hither will appear by the enclosed Extract from Captain Vincent to our President she sailed hence on her return [. . .]. 5th. Instant. We have the pleasure to acquaint you that the Norfolk imported yesterday she left England the 26th. of May in company with ye. ships Boscawen, Earl of Elgin, True Briton, Calcutta and Royal Captain and parted from them the 8th. September after calling at Rio de Janeiro, The Material Advices received from our Honble Masters since their last by the Coast and Bay Ships are contained in the enclosed Extract from their General Letter dated 6 May 1761.

The Shaftesbury, Harcourt and Stormont arrived at Portsmouth under convoy of the Vanguard man of war a few days before the Norfolk sailed the Prince Henry Packet from Madagascar with Slaves is coming into the road.

By our last Advices from Bengal we have the satisfaction to learn that all our Honble Masters ships of last season were arrived there.

We request that you will by the earliest opportunities supply us as Plentifully as possible with Gunpowder such as may be depended upon for service that We last received from you having been very indifferent.

We are

Honble Sir & Sirs

Your most obedient humble Servants

Honble Sir & Sirs,

Since writing to you by the Norfolk the 19^th^. of Last Month we have received by the Sabut Jung and Chittagong Snow your Letters dated 1^st^. and 16^th^. Febry and Duplicates of those you mention to have wrote by the Warren dated 15^th^.

The Rupees consigned to us by the Sabut Jung turn out right in weight but are 3 Rupees different in Tale, at the foot of your Invoice is a Calculation of what they would produce if coin'd into Arcot Rupees, by which it appears that they would turn out something more than they are Invoiced at, We have had them assay'd and find them to be only 8 dwts better than standard at which rate there will be a Loss of near 4½ per cent. We enclosed for your Information a Copy of the Calculation at the foot of your Invoice and a Calculation of the produce in our Mint.

We have acquainted the Gentlemen at Bombay that we purpose to Dispatch the Earl Temple Ossterly and Fox to China the ensuing season as Casual ships. The Letter you transmitted to us under a flying Seal to the President and Council there will be forwarded this Evening by Pattamar.

The Officer of Colonel Slootis Regiment who embark'd for Bengal in the Norfolk having objected to Certify the Accounts of Stores issued for the use of that Regiment. We now transmit them to you in the Packet with the vouchers for Colonel Coote to sign and beg that you will be pleased to tender them to him for that purpose.

Honble Sir & Sirs

We received this day Duplicate of your Letters of the 1st. of April, neither the Prince Edward nor the Fort St. George are yet arrived.

The Royal George being engaged for a Voyage to the Eastward and the Admiral Watson intended to carry over to the West Coast Mr. Carter and the other Gentlemen belonging to that Presidency with their Effects it is not in our power to send you either of those ships, but We apprehend that the difficulty you are under in respect to the time limited by Charterparty for the dispatch from your settlement of a Charter'd Ship, may be easily removed for tho you are not at liberty to dispatch such a ship for Europe before the 21st November you are not under any limitation as to the time of dispatching Charter'd Ships to Us and we are not limited in the time of dispatching them to Europe so that if you could load the Quantity of Goods you intend for the Royal George or Admiral Watson, on board of a Charter'd Ship and dispatch & cons'd her to us so as to arrive here as early as possible in September [we] might fill her up and dispatch her to Europe in that Month. We observe by the List of Ships intended for India this Season the Tilbury was to Sail the beginning of December. We therefore expect her here in this or next Month, should she arrive she sh[ould] without delay be sent down to you but in failure of her Arrival We have a resource the Fox & Ossterly are expected here from the West Coast in July one of them shall in such case be sent you.

Sir

We have received your Letter of the 12th. April wth. the Proposals of your Merchants of providing the Investment inclosed is a Copy of those We have lately made here & at Fort St. David which have already induced some Merchants to contract os reasonable Terms & We hope they will have the same Effect at Masulipatam & Madapollum.

We have before given you a List of the Chay Goods the Callowapores must be of a bright red of 20 Ponjums 16 Covids long & 2 broad.

The Sastracundies must likewise be of a bright red of 22 Ponjums & 16 Covids long and 2 broad.

The Romalls without Glazing 24 Covids long and $\frac{3}{4}$ broad, and 18 Punjums, each Piece containing 16 Handkerchiefs.

[Alijars] are Order'd [. in the] Manufacture may be improved, We wd. have a few Corge provided Long Cloth.

Fine	...	...	...	...	...	...	2000
Salampores	Ordy.		...	...	...	...	3500
Fine	...	...	...	...	...	...	1500

It is observed in the List of Investment that the Madapollum Goods are extreemly defective in breadth. Many of them are Cane Yard broad & Cut thirty four & an half long it is not to be conceived how disadvantageous that Length is to the buyer how much less They sell for at our Sales. You are by all means to procure the Goods of these Manufactures more than two Covids wide at least $2\frac{1}{4}$ & full 72 long, and therefore you will admit of no single or double O Chop into the Investment.

The 12 Call is to consist of 2880 Threads.

The 9 Call . . . of 2160.

The 8 Call . . . of 1920 and We think No. 2 shod. have a greater Reduction of Price than We find in your Merchants Proposals Care must be taken that there are no Holes in the Cloth put up for Europe.

Your ordinary Long Cloth is so much complained off, that the Company desire to have none of it nor do We, except the Fabrick can be improved to near what it was formerly when it was a substantial good Cloth.

As there is not now so much order'd from all the Northern Settlements as used to be from each, You have a good Opportunity of improving the Investment especially as you have fewer Rivals.

All the Settlements are to transmit annually an Account drawn in Columns the first specifying the Quantity sent & the third the reasons drawn concisely where Orders were not comply'd with.

Should the advance of 25th. pr. [Cent] prove insufficient We leave it to you to do your best for Our Honble Masters.

Mr. Alexander Dalrymple.

Sir

The Ship London is put under your Direction, for the prosecution of the Voyage to Sooloo & we have appointed Mr. Thomas Kelsal in joint Commission with you for transacting affairs relating to the Cargo and in case of your Death, he is to have the sole Direction.

You are to proceed immediately in the London for Abai on the N.W. Coast of Borneo where you will provide Pilots for one of the Companys large ships which we intend to Dispatch shortly after you to Sooloo & leave such orders as you may find necessary for them to pursue, to prevent any accident which may attend their missing Abai, or not receiving your Orders, the like are to be lodged at Banguey.

It is necessary to be carefull that the large Ship be not detained so late as to make her Passage to Canton precarious, You will therefore give her as Quick a Dispatch as possible.

It will be necessary that you proceed to China yourself in the London that you may return to Sooloo with a full state of the Voyage & finally adjust that Account.

We think it necessary to take notice that if any difficulty should arise in regard to the manner of consigning & disposing of the Cargo at Canton You must insist that the whole be consigned to the Companys Supra Cargoes, as any other method may involve the Companys affairs & in such case we do impower you if you find it expedient to make an Allowance in the Terms of Contract for any Loss that the Sooloo's may sustain thereby in the Price of the Sales.

You will endeavour to conclude another Contract on the best Terms you can & transmit to us the earliest Intelligence for the timely provision of the Goods. We do not think it necessary to limit the terms, as we apprehend there is no doubt of such as are more than adequate to the Risque.

We have only to recommend that an Adjustment of the China Sales may be avoided by terminating the Contract at Sooloo and to observe that the greater amount you can Contract for the greater will be the Company's advantage & consequently our satisfaction.

As it is possible from the nature of the Place that the Natives may have Goods for the China [Market] to a greater amount than their present demand of Goods from hence, You are therefore empowered to make an agreement to Transport them to Canton on freight which however must not be less than 25 pr. Cent on the Gruff & 15 on other sorts of Goods to be paid in Kind & this Agreement we recommend to take place only after another valuable Contract is agreed to.

We leave it to your determination whether the London return directly here or to Bengal; the last appears most expedient if no other Conveyance offers to that Place as the means of obtaining the Bengal proportion of a Cargo for a future Voyage. In the present Instance we shall endeavour to procure for the ship which follows the Proportion of Bengal Assortments in the Contract & Musters of what others can be got.

You are empowered to Contract for any Quantity of Cinnamon, Pepper &c^{a}. and We recommend to you to encourage the Cultivation of them. A list of the several Articles which we think may be agreed for is enclosed. These articles you will use your Endeavours to secure for the Company till their Pleasure be known and the Commerce be put under their particular Regulations.

You will also endeavour to make an Agreement with the Buggueses for what Goods they may require, to be paid for in specie & other Commodities, and as turning the Bugguese Commerce into this Channel would be of infinite Benefit. You are to Consider it as a Chief Object of your attention.

In case you should find any Foreigners or Private Traders in the Sooloo Districts you are to take every measure for the Companys Benefit & insist on the Government adhering to the Treaty if you find it expedient.

Some instructions of a Private nature will be communicated by the President which we expect you to execute to the best of your abilities.

We do not stipulate any Commission to be allowed to you for your care & trouble in this Voyage, being persuaded that your good & faithfull services will meet with a more ample reward from our Honble Masters than we think ourselves authorised to promise you. We shall not fail to give them a just information of your Proceedings & recommend to you a full Confidence in their generous Consideration of your Zeal as the surest way to obtain their Favour.

As the Soolo Contract was on a Presumption, that the Cargo except the Europe Articles would be provided immediately by the Company which it has been impossible to do, it seems reasonable that an abatement be made in the stipulated Gain from hence to Soolo which you are accordingly empowered to do, as we think it by no means eligible to be too strict in this first agreement.

We also recommend to you to inform yourself, if short & narrow Cloths can be disposed of at Soolo at a proportionate Rate, as it would greatly facilitate our Europe Investments, could those improper for the Europe Market be vended elsewhere.

Enclosed is Invoice of the Cargo to Soolo by the London, Consigned to you & M^{r}. Thomas Kelsal as also a letter to the Supra Cargoes in China, in which we desire them to supply you with what money you may want for the Vessels

Expences, or for purchasing a returning Cargo either in China or at Sooloo, as you may determine, on consulting with the Supra Cargoes, at Canton, in case you should pay Port Charges.

We have directed you to encourage the Cultivation of Cinnamon, Pepper &c. at Soolo in a former Paragraph, We recommend to you to Consult with the Supra Cargoes at what Price to contract for those Articles which may turn out to Account in China tho we think you may agree at such a Rate as may according to the Common price in China yeild a Taile for a Dollar. In respect to the Articles not proper for China you will Contract for them on the best Terms you can, as well those you may get from the Buggueses as what are produced at Soolo. After the first experiment we shall be able to give more particular Directions.

We wish you a successfull Voyage and Date this in Fort St. George the 5th. June 1762.

Gentlemen

Mr. Dalrymple in a late Voyage to Sooloo in the Cuddalore Sloop having made a Contract with the Natives for several Articles proper for the China Market to be given in Exchange for Piece Goods from this Coast we have been induced to try if this might not turn out Benificial to our Honble Masters, and therefore send him in their ship London with part of the Goods that he may make preparation for the ship we purpose sending hither in her way to China this season, when he has performed this service he is to proceed to China, as you will observe by the nature of the Contract, which Mr. Dalrymple will communicate to you it is necessary he should do so.

There are 500 oz. of silver on board the London but should Mr. Dalrymple be in want of Money for the Vessels Expences or for a returning Cargo you will be pleased to supply him with such a sum as you may think necessary after he shall have communicated the same to you.

TO THE HONBLE CHARLES CROMMELIN ESQR.
PRESIDENT & GOVERNOR &CA. COUNCIL AT BOMBAY.

HONBLE SIR & SIRS

Enclosed is Duplicate of our last dated the 3d. Instant as also a Packet received from the President & Council of Fort William.

The Brittania Snow is arrived here & we will endeavour if possible to procure a Freight for her & return her to you as you desire early in October.

In our Letter dated the 25th. March we acquainted you that the Gentlemen in Bengal had consigned to us five Lacks of Rupees towards a Stock for the ships going to China. They have since sent five Lacks more, four of which we have received, & are in hourly expectation of the arrival of the Prince Edward a Country ship, on board of which is the remaining one Lack.

To this sum We think to add five Lacks more which will make a stock amounting to fifteen Lacks for the ships bound to China this season.

We have the pleasure to acquaint you that the Money we have received in part of payment of the Nabobs debt this Year will enable us to supply you with five Lacks of Rupees also, and you may draw for that sum whenever you Please.

The Gentlemen in Bengal in their Letter of 26th. April writing that the Godolphin having sprung a Leak was unable to proceed on her voyage to England and that if the Captain was not able to repair her they should want a ship to carry home her Cargo.

They tell us also that they have an overplus of goods sufficient to load home a small ship which we are sending the Admiral Watson to take in, & they add that if nothing disappoints their present hopes of a good Investment they shall have Loading for six ships, and desire that we will concert measures with you that they may be supplied.

We observe by the List sent us this Year there are for . . .

COAST & BAY.		
Tilbury	1	
Clinton	1	
Hardwick	1	
Walpole	1	
Drake	1	
New Ship (Pearce)	1

New Ship (Allen)	1	
New Ship (Riddell)	1	
	—	4
Remaining on the Bombay SIDE.

		11

By the above it appears there will be Six Ships destined for the Coast & Bay which are the number the Gentlemen at Bengal desire and as we may be able here to dispatch one ship home in October & another in February next there will be wanted two ships of the number consigned to you which We believe you may be able to spare as you will have on hand five ships besides the Winchelsea & a New ship Captain Rous directed particular Voyages which doubtless should not be regarded could they be loaded home.

Our Honble Masters having been pleased to direct in case of the Reestablishment of their Settlement on the West Coast, that Mr. Carter, the Council & the rest of the Companys servants Civil & Military belonging to that Establishment should be restored to their several stations, and Mr. Carter with such others of those Gentlemen who are now at Madrass being about to proceed thither in Consequence, We have put the Royal George under their Orders to carry them to Fort Marlborough. If that ship should be returned to us, in time to be dispatched to England early the next Year we shall in such case only have occasion for one ship from your side to be dispatched home but if her services should be wanted at Marlborough We shall then be in need of two ships as beforementioned.

To the Honble Henry Vansittart Esqr.
President and Governor &ca. Council
of Fort William.

Honble Sir & Sirs

Since Writing to you the 30 June we have received your Letters dated 7th. and 28th. of that Month.

(2nd) We observe what you write concerning the great Repairs wanting to the Cuddalore Schooner and Leopard Snow. Their Long Detention was owing to very particular occasions when We can ever avoid the like again you may depend on our doing so.

(3rd.) It is very certain that the Company are much indebted to Mr. Coote and his Regiment for the Services he has done on the Coast, they are under the same obligations also to the other Regiments of his Majesty who have served here, but as all these Regiments came abroad without any contingent Money the Colonels of them Mr. Coote among the rest desired that We would supply their wants and promised to give us Certificates of our having done so. We had certainly therefore a right to expect he would leave it to the Government at home to make the remark he has done, His certifying to what he has received does not oblige the Government to pay the Amount if they think it improper. We must desire therefore that you will tender the Accounts again to him.

(4th.) Our Honble Masters Ships the Clinton and Essex arrived from Madiera the 11th. of last Month, & the Drake the 3rd. Instant directly from England she left Portsmouth the 25th. March in company with the Harcourt Elizabeth and Horsendon bound to China, The Hardwick for Coast & Bay, and the Winchelsea and Hector for Madiera. She parted from the Winchelsea and Hector the 12th. April in the Latt: of 39. 57 No. from the Harcourt, Elizabeth & Hardwick the 17th. May in Latt. 8·10 So. and from the Horsendon the 16th. June in Lattitude 35·55 South.

(5th.) The Grosvenor for Coast and China & to call at Madiera and the Walpole for Coast & Bay left England some time before these ships. The Drake fell in with the Grosvenor the 19th. June and parted from her the next day.

(6th.) The Osterley saild the 1st. Instant with Admiral Cornish & the Essex the 4th. under Convoy of the Falmouth. These ships proceed first to Manilha and then to China. The Royal Captain sailed yesterday for Sooloo and China. By these Ships & the True Briton which Saild the 1st. of last Month directly for China We have consign'd to the SupraCargoes near fourteen Lack of Rupees, We were in hopes of making this Sum Larger, but the non arrival of the Prince Edward has put it out of our Power, and as We have not heard of this Ships being any where to the Northward We fear some Accident has happened to her. The Fox imported here from Batavia the 27th. of last Month.

(7th.) This waits on you by the Admiral Watson which Ship we dispatch to you agreable to what We wrote the 24th. June.

(8th.) The Fatteedad has landed here the Salt Petre which you had put on Board her for Bombay. This Quantity with what we before had may make about One Hundred & Fifty Tons & will serve for our October Ship, but we much fear we shall be deficient, a hundred or a Hundred & Fifty Tons in Bale Goods, should Your Honour &ca. be able to put that Quantity on board the Godolphin and Admiral Watson over & above their proper Europe Cargoes and permit those Ships to call here in the Month of September they may proceed home in Company with the ship We dispatch from hence. But in case you think it improper to send those ships We must beg you will dispatch to us the Leopard Snow with some Bales of your Investment and what Salt Petre She can take in as soon as possible that We may not run any Danger from the Ships laying here after the change of the Monsoon.

(9th.) The Tilbury, Clinton & Syren Snow will follow this ship in few days.

(10th.) Enclosed you have Invoice & Bill of Lading for what Redwood has been put on board the Admiral Watson at this Place. The Captain is ordered to call at Duraspatam to take in a Quantity. We have lying there, an Account of which will be transmitted you from thence.

Honble Sir & Sirs

Mr. Cornish having acquainted us that he has charged Capt. Daniel with some dispatches for England and desired that We will provide him with a Passage on the first Ship dispatched from hence, We should in consequence thereof have ordered Captain Daniel a passage on Board the Admiral Watson (which is the first ship dispatched from hence and intended for Europe) had the Admirals letter been delivered to us in time, but as that ship sailed some days ago for Bengal Captain Daniel proceeds thither in order to take his Passage for England on the first Ship, We request therefore that you will be pleased to give orders that he may be accomodated accordingly.

Honble Sir & Sirs

Our last was by the Clinton dated the 12th. Inst. of which Duplicate accompanys this—the Tilbury now proceeds to you on which ship We send a Quantity of Redwood agreable to Invoice & Bill of Lading enclosed.

By the ship Grosvenor Fifty five Pipes of Madeira Wine are consigned to us to be forwarded to you, two of them leaked out on board entirely, the other Fifty three are now sent to you by the Tilbury, for which We debit your Presidency according to the Invoice enclosed, The Defficiency in these Pipes will appear by an Account of the Gauge sent herewith.

The other Consignments for your Presidency by the Grosvenor are also sent on board the Tilbury the particulars whereof will appear by the Invoice.

Mr. Cornish having addressed a Letter to us desiring that we would provide Capt. Daniel (whom he has charged with some dispatches) with a Passage to Europe on the first ship. We informed Capt. Daniel that he might proceed on any of the Companys Ships to Bengal & that We would request of your Honor &ca. to order him a Passage on the first ship that should sail from thence, this he declines for reasons which are set forth in his Letter to us, a Copy whereof is enclosed. As We cannot without great Inconvenience permit him to proceed Home on the Ship intended to be dispatched from hence in October, and We do not foresee any disadvantage that woud arise to the Company should the Godolphin or Admiral Watson touch here We are to request the favour that Your honour &ca. will be pleased to order one or both of those Ships to call at this Port which will give us also an opportunity of sending a Number of French Prisoners from hence who are very troublesome & of conveying to England duplicate of our Advices.

We have recd from Mr. John Young late Supra Cargo of the Prussian Ship which was lost in the River of Bengal in 1756 a Letter dated @ Lyons the 15th. Decr. 1761 on the subject of a Claim he makes upon Mr. Renault for a debt of Twenty thousand Sicca Rupees with Interest due thereon, in the recovery of which he taxes Mr. Chanlay who was also Supra Cargo of that Ship with having interfered, and requests our assistance in procuring him Justice. As both Mr. Renault & Mr. Chanley are in Bengal We enclose a copy of Mr. Youngs Letter that you may give such Attention to his Remonstrance as you shall see proper.

We request that our last Indent for Packing stuff may be complied with by the first opportunity.

Hon̄ble Sir & Sirs

Our last to you [was dated the 23^rd^, September] We have since received your several Letter [s dated the 26^th^. August and the 6^th^. Sept^r^.]

The Salt Petre you consigned to us by the Spencer will We hope enable us to dispatch the Fox for Europe the latter end of this Month fully laden.

Should the present tranquility on the Coast remain undisturbed We flatter ourselves that as large an Investment may be made as heretofore, but it must be a work of time. The Manufacturers who have been dispersed & obliged to seek for other means of support return to their former employments but slowly and as yet are not much to be depended upon & consequently the promises of our Merchants are equally precarious, We think however that We may venture to say We shall have about Two hundred Tons in Bales ready by the end of January & We therefore leave it to your Honour &c^a^. to send us a ship to [tak]e in that Quantity.

We are at a loss what to say concerning the [Stores i]ndented for by the Gentlemen of Fort Marlbro, We have not at [present any] Vessell to send thither nor are We as yet provided with any [of the stores] they desire except Salt When We take a view of the State of (shipping received) & expected we find it so precarious that We are un[able to form a plan] & must be guided by future Events Your Honour &c^{a}. [. . .] the following statement.

[. . . Suppo]sing that with the assistance of Two hundred [tons from us they should [be able to dispatch the Tilbury, Clinton] Hardwicke and Admiral] Watson & one Ship expected from Bombay [. . .] remain.

[. . .] probably arrive from Bombay to [. . .].

[. . .] for Coast & Bay, tho it be late may yet [. . .].

[. . .] to be employed as occasion may require [. . .] for Madeira Coast & China should she arrive [. . .] her to proceed to China this Season she may be [. . .].

[. . . Roy]al George carried M^{r}. Carter &c^{a}. to the West Coast in [. . .] be detained there or may be sent to Manilha & from thence return hither.

The Prince Henry Packet is expected from the [. . .].

Out of all these contingencies We think a con[signment] may be reasonably depended on for the West Coast Stores & should [the] Expedition to Manilha succeed it may be necessary to send a ship th[ither].

The Iron consigned to this Presidency by the Hardwi[cke] having turned out deficient on landing here an Account of such Deficiency was tendered to Cap^{t}. Samson which he declined signing, We therefore now enclose his Bill of Lading with such deficiencies endorsed off which you will be pleased to give up to him upon his signing the enclosed Statement of deficiencys which should he still refuse to comply with you will be pleased to forward with the said statement in the ships Packet for England where this Matter may be adjusted [according] to the terms of Charter Party.

Long Cloth Worriar Pollam N°. W & 2.	too great a disproportion between N°. 1 & 2 and very little better than our Ordinary Long Cloth at 42 Pag^s. ℔ Corge.

[Honble Sir & Sirs]

We [. . .] Tappies and 11^th^. of October [. . .].

The Chin [ts . . .] Cuddalore where We have sent orders [. . .] you consigned to us by her.

We observe [. . .] of the Chartered Ship to us the latter [end] of January to fill up with Bales and [. . .] our letter of the 16^th^. October that We expected to have about 200 Tons in Bales by the latter end of January so that with 30 Tons of Redwood & 250 Tons of Salt Petre you intend to send in part of her Cargoe We hope to make up her full Loading & dispatch her in good time.

The Fox sailed the 10^th^. Inst^o^. for Europe fully laden but to compleat her Tonnage We have been obliged to send in her all the Salt Petre We have received from you.

As we do not foresee any Event that can disturb the tranquillity of the Coast We have all reason to expect a very considerable encrease in our Investment in the course of the next Year, and were it possible for you to assist us with Salt Petre We have not the least doubt of being able to dispatch a ship to Europe in August next; In your Letter of the 2^nd^. August We [. . .] that the Quantity you intend for us this Season (over & above [. . .] Tons for each of the five ships for Europe) amounted to [. . .] Maunds or Three Hundred & Thirty Tons of which [. . .] received only One Hundred Tons ℔ Spencer, so that [. . .] you will be able to send us this season upwards [. . .] & We request that you will if possible [. . .]

In expectation of one of the Companys [. . .] way to the West Coast as you propose [. . .] laden on her the Articles the [. . .] have indented for to us. [. . .] the Head of Negrais stands Debtor in [. . .] Pagodas 87,659–34–27 if the Expedition [. . .] place We beg you will be pleased to give [. . .] is possible that we may warn all Vessels [. . .] be on their Guard.

[Hon̄ble Sir & Sirs]

[. . .] and We have now [despatched our Hon̄ble] Masters Ship Fox [to Europe on] the 10^th. Instant with [. . .] & Coast & Piece Goods.

[. . .] Europe for the [. . .] Walpole & Earl of [Ashburnham] as she sailed early. The Haughton [*sic*] also for Madiera Coast & China is missing but as We have heard that she met with an accident in the Channel & put in to Portsmouth it is probable her destination may have been altered.

The Gentlemen of Bengal write us the 23^rd. Sept^r. that they purposed to dispatch the Admiral Watson & Godolphin for Europe in October; One Ship they intend to send up to us in January to fill up with our Bales & four more they think to dispatch home directly from thence.

As the Brittania Snow was freighted on the Companys Account We were willing to make her as usefull as We could untill the season permitted her return to Bombay [we th]erefore ordered her to Cuddalore to fetch the Companys [Bales from] thence & We directed Cap^t. Delia to call at Allumpar [va to fetch] some shells for Chunam which lay ready there & [. . .] here, It is true he did obey these orders but with [. . .] behaved in a manner so unbecoming to the [. . .] that We cannot avoid complaining of him [. . .] sent him back to Allumparva for another [. . .] proceeded to that Place, took on [. . .] necessary for Ballast & then stood [. . .] receive any more. We conclude there—[. . .] you—We enclose an Account of [. . .] the Snow & of the Cost of the [. . .] recover the same from him [. . .] will think it proper to take notice [. . .].

[. . .] and observe [that you are attempting to make the] Investment to [the southward which does not only give the] Merchants an opportunity of combining with those at Bandarmalanka, but the one must necessarily interfere with the other We would have you therefore after collecting the Cloth to the amount of the Money you have at present advanced, leave those Merchants to carry their Cloth to Bandarmalanka & confine yourself entirely to the provision of Cloths from the Bony and Tuney countries, from whence We see not, if proper encouragement is given why as large a Quantity of good Cloth may not be provided as formerly was, but if any Causes We are unacquainted with should prevent this & you cannot provide.

[We have received] your Letter of the 29^th^. of last Month & in answer to that part thereof [relating] to the offer your Merchants have made of giving you their Cloth at the same abatement our Merchants here have, we acquaint you that tho the abatement made here was very [consid]erable, the turned out Cloth was not much Inferior to [what] We had taken in & the Lengths & Breadths were equally [. .]. But as We had & have much at heart the improving [the] Investment We insisted upon such an Abatement in [hopes it] would induce them to be more carefull in future.

This therefore must be the rule you [. . .] guide your [self] with regard to all the ordinary Cloth of [the prop]er Lengths & Breadths—Short measure Cloth We will not [receive any] you must make the Merchants pay double duty thereon [when] they take it out of the Warehouse.

Fine Cloth must never be rece[ived] if it is inferior to the Muster N°. 2 you [Should either] reject it or sort it down to Midling & [what . . . turn'd] out fine may be receed as midling & not other[wise].
